**657 \* F-VF #CLP1 - Aero Club of Canada Issue - (25c) Red and Black.** This item was issued on August 26, 1918 to commemorate the inaugural flight between Toronto and Ottawa. It was quickly realized that the denomination (25c) had been omitted from the design - only 200 were ever released. A revised issue followed a couple of days later. We offer a presentable example of this scarce item, with typical centering and light gum crease. The original gum has a pair of hinge remnants.

A very finely centered example on yellowish paper with full original, never hinged gum. There is a minor gum thin on two perforations at upper right.
