#### Within Canada:

- Single or multiple lots that fit into one or more regular EXPRESS POST envelopes will be shipped by that method with signature required. These lots will be charged postage only but not a handling, packaging, or insurance fee.
- Cartons and larger lots will normally be shipped by parcel post with signature required. If bulky lots have a value in excess of \$1000 they will be shipped by EXPRESS POST with signature required. This category of lots will usually be charged an additional handling or packaging fee.

#### To the USA:

- Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging, or insurance fees.
- Cartons and larger lots will be shipped by UPS ground with signature required. This category of lots will usually be charged an additional handling or packaging fee. NOTE: The U.S. Postal Service policy of irradiating mail risks damage to stamps especially when they are enclosed in a plastic mount. We will risk sending lots by the USPS only after receiving written instructions from a purchaser who has paid in full and specifically accepts receipt on an as is basis.

#### Overseas:

- Single or multiple lots will be sent by Fed-Ex with signature required and no extra handling, packaging or insurance fees.
- Carton and larger lots will be shipped by pre-arrangement only. We reserve the right to not ship to areas of the world not served by Fed-Ex.

## Notes on catalogue values and reference

Catalogue values are listed for most lots offered. These are the best available guides to the retail price of a single stamp or set provided that the item(s) are the same quality as the standard described in the introduction to each catalogue. Exceptional quality will often sell above the catalogue value; inferior quality will sell for less; faulty stamps in a lot can result in a sale price of a small percentage of the catalogue price.

When cataloguing collections we use the value for the grade specified. For Scott this grade is very fine. For Unitrade we use the grade specified at the start of the textual description. Thus a "fine" collection will have all stamps added at the fine price. We do not count obvious forgeries, reprints etc. and usually do not count faulty or ugly stamps. A lightly penciled X under a stamp means it was not counted in the catalogue value. We put a light pencil note beside more expensive stamps and put a total catalogue value at the bottom of each page to assist viewers.

The following catalogues have been used. If there is a variance, this will be mentioned in the text of the description. The term "owner's catalogue value" indicates a variety of approaches and may include older versions of catalogues. We will have inspected and reviewed the result but not re-catalogued; hence we do not vouch for the exact total of catalogue value.

The U.S. Specialized and the Scott Classic are referred to as Scott interchangeably with the standard 6 volumes.

### About Bidding

**Please bid using these increments.  
(All bids are in Canadian dollars.)**

<b>\$2 - \$30</b>	<b>\$2</b>	<b>\$1600 - \$3000</b>	<b>\$100</b>
<b>\$35 - \$100</b>	<b>\$5</b>	<b>\$3200 - \$7000</b>	<b>\$200</b>
<b>\$110 - \$250</b>	<b>\$10</b>	<b>\$7500 - \$15,000</b>	<b>\$500</b>
<b>\$275 - \$750</b>	<b>\$25</b>	<b>\$16,000 - \$30,000</b>	<b>\$1,000</b>
<b>\$800 - \$1500</b>	<b>\$50</b>	<b>\$32,000 - \$50,000</b>	<b>\$2,000</b>
		<b>above \$50,000</b>	<b>\$5,000</b>

- 1) Please bid using the increments above. All bids not conforming to these increments will be lowered to the appropriate amount.
- 2) You have the option to break ties or increase your bids if needed by checking the appropriate box on the bid sheet.
- 3) If you are bidding through the internet, after you have entered your bids you will receive a computer generated email describing each lot you bid on and telling you where you stand in terms of other bidders without divulging the high bid. You then have the option of updating your bids. If you bid by mail or fax you have the option of asking to receive this email by checking the appropriate box and including your email address.
- 4) If you give your bids to Stamp Auction Network, or to Sparks Auctions you will only pay one increment over the second highest bid. Your top (maximum) bid will be used only if another bid is one increment below yours, or exactly the same as your bid but was received after yours. In the event of tie bids, the earliest bid received by us will be successful. *We do not accept "buy" bids.*

5) The auctioneer may permit telephone bidding during the auction. This must be arranged well in advance of the auction starting time. Sparks reserves the right to refuse telephone bidding at any given time. Sparks will not be held responsible in the event that a telephone bidder cannot be contacted. Applicable telephone expenses will be charged to telephone bidders.

6) OPENING BIDS will be available approximately one week before the auction. (With one week to go most of these will be well below the final price). New opening bids will be updated at least daily. If you see that an opening bid is higher than you wish to bid for a lot you would like to buy, this feature allows you to focus on other lots of interest to you. Sparks will not be held responsible in the event of errors in the opening bids provided before the sale.

7) You have the option of limiting your purchases to a specified dollar figure (e.g. \$325), or to an approximate figure. This feature allows you to bid with the confidence that you will not be financially embarrassed if you are very successful in the auction. It also allows you to use a strategy of bidding just above the opening bid for many lots with the expectation of winning only a minority of these.

8) With currencies fluctuating as widely as they do it is no longer practical to offer bidding in both Canadian and U.S. dollars. However you can specify the limit of your total purchases in US funds and it will be converted to the appropriate amount on the day of the sale.

## How To Bid Live Via The Internet

Live bidding on the internet allows bidders anywhere in the world to participate in this auction. Sparks Auctions is pleased to make the auction available through Stamp Auction Network, and we will do everything we can for our customers to make the process simple, trustworthy and fun.

Connect to Stamp Auction Network at:  
[www.stampauctionnetwork.com](http://www.stampauctionnetwork.com)

Register once and create a user name, which will allow you to choose auction firms to bid with, including Sparks Auctions. We need to confirm your account before you will be able to place bids with us. For faster bidder confirmation, please reference Ian Kimmerly, Sparks Auctions, or other North American auction houses when you create your account.

Once you have been registered and approved by us, you can:

**Keep track of lots you are interested in, and place bids on-line at any time before the auction begins.** This is similar to any other form of advance bidding (ie., sending us a bidsheet by mail, fax, etc.), but you will receive acknowledgement of your bids once they are submitted, and, if you wish, further confirmation by e-mail if you are outbid.

**Bid Live by watching action on-screen.** The Message window will tell you which lot is being offered, what the current bid is, and if it is approaching Last Call. Click the button

with the amount of your next bid (the next six increments over the current bid are shown). When an item is sold, the hammer price is announced. **The page will refresh more quickly if you click the Hide Images button.** If you are not bidding, close the window to reduce traffic on the site for others.

**Watch The Auction** by logging in beforehand and participating as a spectator only. You can even listen to the audio broadcast of the auction on your computer. (Audio requires a PC and Internet Explorer; you may be asked to install an ActiveX control the first time you connect.)

## Some Bidding Tips

**Bid Early** Do not hesitate to press the button for the maximum amount you are willing to pay. This is comparable to keeping your hand up on the auction floor. The bidding will only reach your maximum if a bid is received for the increment below (ie., an underbid).

**Listen To The Auctioneer** Use audio so you can hear the auctioneer. You will know where the bidding is, and have a better sense of whether an item has reached Last Call.

**Pass When You Are Done** If you have been actively bidding on an item and wish to drop out, **PLEASE PRESS THE PASS BUTTON.** If you do not, the whole auction is delayed.
